

English Department
Freshmen
Miss Alexandra Duncan - Miss Tamara Torres

Sophomore Unit 0 Process Grade

Objective	1. Use English to design a plan to help the environment inside the school community.
------------------	--

Dear Students:

For your grade you will have to create an INDIVIDUAL 1 - 2-minute presentation about a plan to help the environment inside the school community using an Infographic as visual aid. In the PPT you'll find all the instructions and we also attached the rubric.

IMPORTANT

You will have until Thursday 19th 23:59 hrs **to send your presentation speech** as Word Document for us to comment on them. **VIA EDMODO PLATFORM**

The Presentation Structure:	<i>Example</i>
1. You must present the problem:	<i>Student's waste too much paper.</i>
2. The solution you invented:	<i>We will have a recycle bin to collect the paper and then recycle it.</i>
3. The target audience (part of the school community):	<i>The plan is that teacher, students and personnel can recycle their used paper.</i>
4. Recourses used and how you get them	<i>We will hold a riffle to obtain the money for the recycling bins. A group of 5 students will be in charge of collect the paper from the bins, and the school will take the paper to the recycling plant</i>
5. Timeline of the plan.	<i>We will need 15 days to do the riffle, and then every month the students will collect the paper. Every two months the school will sell the paper to the recycle plant.</i>

If you have any question please ask here or by email:

- Miss Tamara= tamara.torres@westonacademy.cl
- Miss Allie = alexandra.duncan@westonacademy.cl

If you haven't entered Edmodo yet here are the instructions:

1. Visit edmodo.com using your smartphone or computer.
2. Click or tap "Get Started as a Student."
3. Follow the instructions on your screen. Use your class code:

Sophomore A: b3bp8c.

Sophomore B: 9mqmy2

4. Create the account using your **real name and profile picture** or we will delete the account.

Power Point Presentation Used in Class:

INSTRUCTIONS

In pairs think of a plan to help the environment inside the school community

1. Start by brainstorming ideas according to the school pollution situation.
2. Choose one of the ideas and create a solution that involves the school community.
3. Make sure the solution is develop by you, not teachers or parents; they can only help.
4. Create an infographic to present your project

THINKING PROCESS

Brainstorm ideas using this table example:

POLLUTION PROBLEM	SOLUTION
Students may waste paper and throw them to the garbage	Students will have a recycling bin for paper exclusively and then recycle the collected paper
